

My First Touch Develop Game

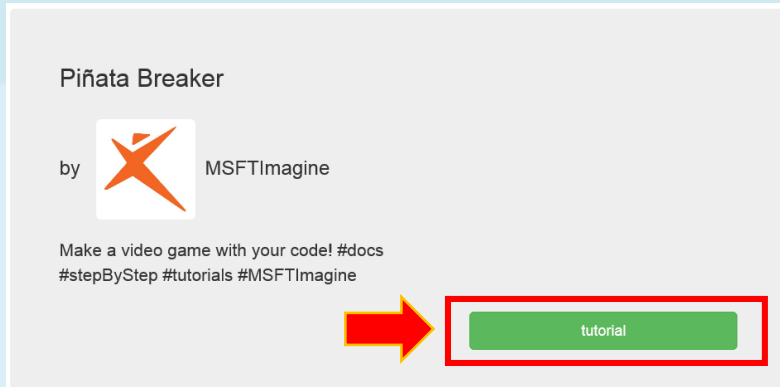

Completing Piñata Breaker

Card 3 of 5

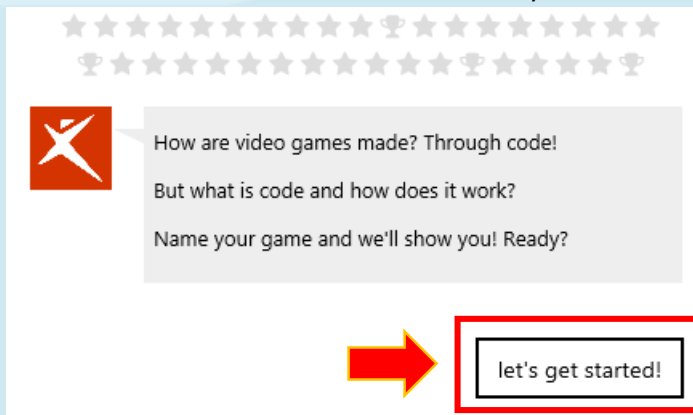

I am learning: **Touch Develop Programming**

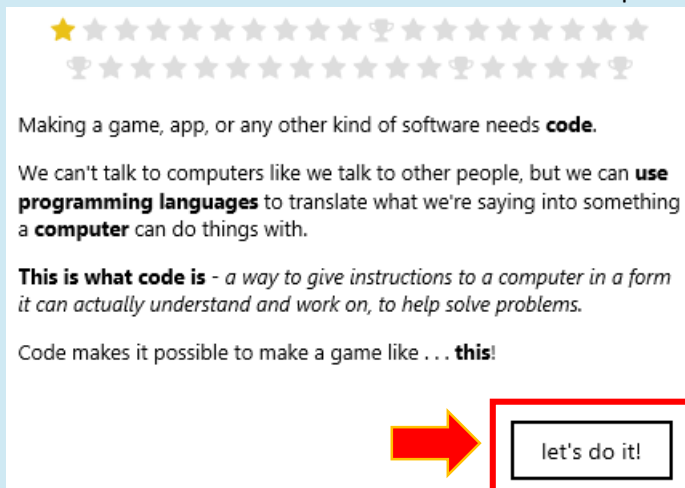

1. Using a web browser like Internet Explorer, Firefox, or Chrome, **go to the Piñata Breaker Touch Develop tutorial** at <http://aka.ms/pinata>
2. **Click on the green Tutorial button** on the page to start this tutorial.

3. **Click on the Let's Get Started! button** after you've had a chance to read the message.

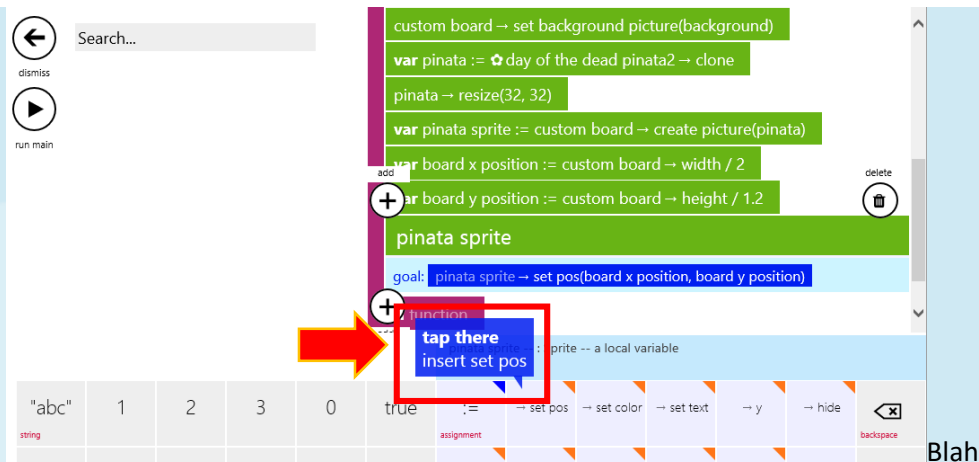

4. **Click on the Let's Do It! button** and follow the blue prompts to enter the required code.

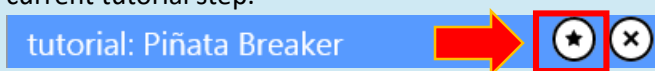

5. **Keep following the blue prompts** for each tutorial step and earn a star for each step completed. Earn trophies on occasional tutorial steps as well.

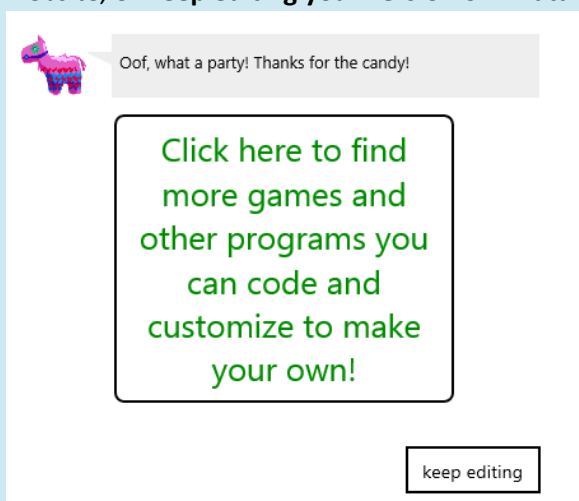

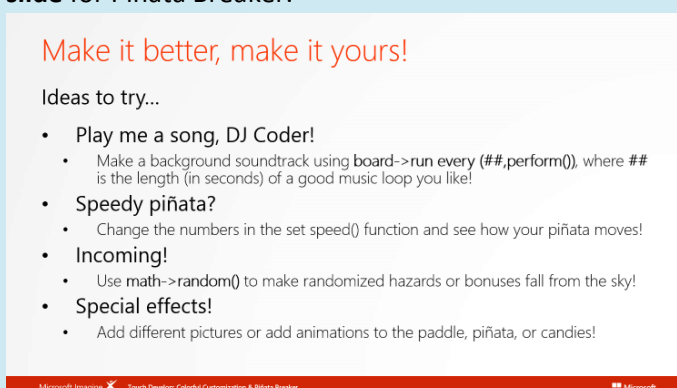

- Click on the black star in the circle if you need a reminder of what's happening in the current tutorial step.

- Choose if you want to **try other tutorials** and coding activities at the Microsoft Imagine website, or **keep editing your version of Piñata Breaker**.

- Go to the website <https://msdn.microsoft.com/imagine/imagine-create000> in a new tab or browser window - click through the slides until you see the **Make it better, make it yours!** slide for Piñata Breaker.

- Add one or two customizations to your Piñata Breaker game based on what you see in this slide.

Congratulations! You've made a Piñata Breaker game in Touch Develop!
