

# My First Touch Develop Game

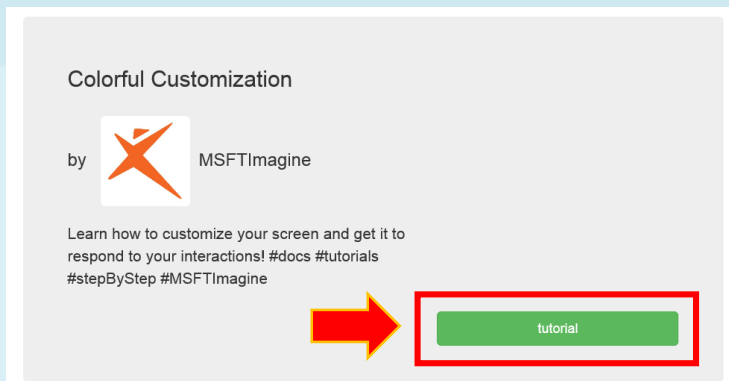

## Completing Colourful Customization

Card 2 of 5

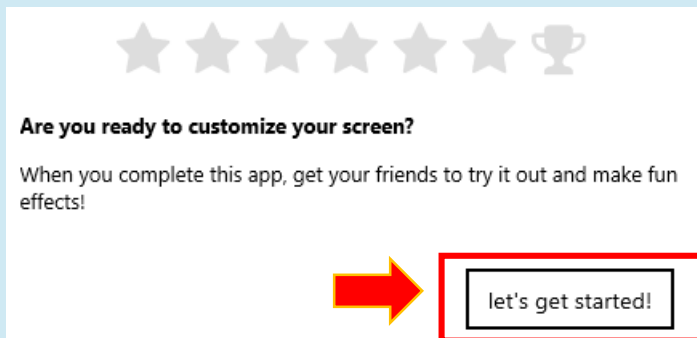

I am learning: **Touch Develop Programming**

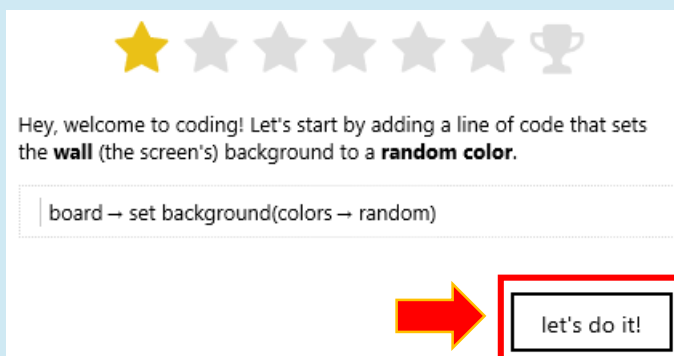

1. Using a web browser like Internet Explorer, Firefox, or Chrome, **go to the Colorful Customization Touch Develop tutorial** at <http://aka.ms/colorful>
2. **Click on the green Tutorial button** on the page to start this tutorial.

3. **Click on the Let's Get Started! button** after you've had a chance to read the message.

4. **Click on the Let's Do It! button** and follow the blue prompts to enter the required code.

5. **Keep following the blue prompts** for each tutorial step and earn a star for each step completed.
6. **Choose to either make a Piñata Breaker game or continue editing your Colorful Customization.**

**Congratulations! You can customize and randomize colours in Touch Develop!**
