

My First WordPress Blog

Setup a WordPress Blog

Card 1.b of 8

I am learning: [Creating WordPress Blog](#)

1. Go to <https://portal.azure.com> and login with your verified DreamSpark account

2. Click your blog, then click the app, and the click Browse

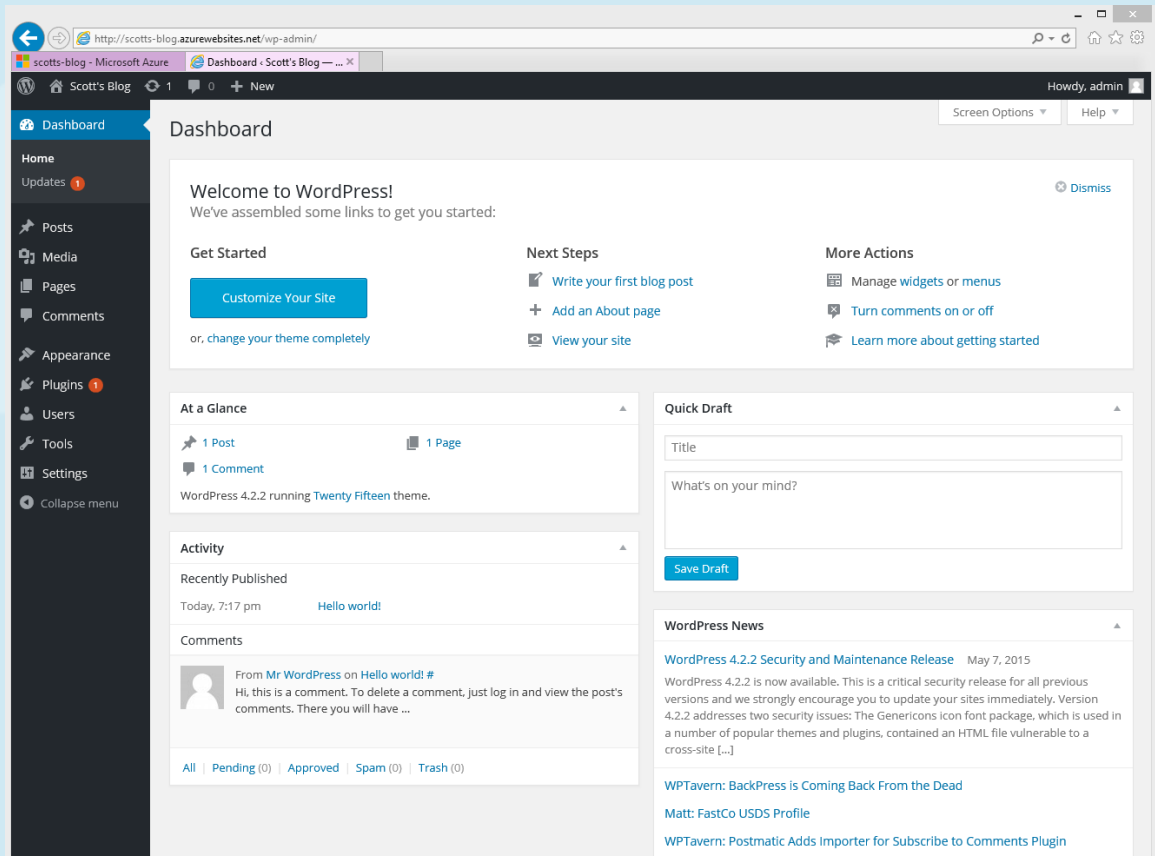

3. Finish configuring your blog by selecting the default language, completing the form and Install

- Update here*

Click here

4. Your blog is now fully configured and ready for you to start making it your own. In the following learning cards, we'll go through customizing your site. We'll setup up a theme, add pages and content, and publishing live on the web!

Congratulations your WordPress blog is now setup!
