

My First WordPress Blog

Give your WordPress Blog a New Look

Card 1.c of 8

I am learning: [Creating WordPress Blog](#)

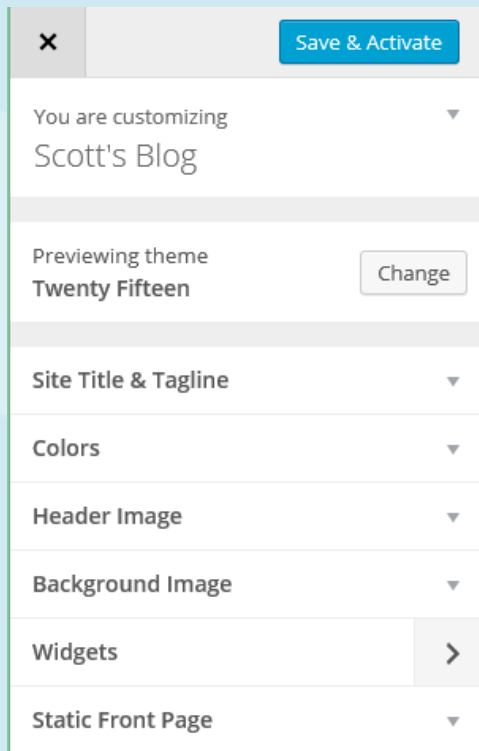

- <http://yourblogname.azurewebsites.net/wp-admin>

- Click **Customize Your Site** and then click **Change** on the **Active** theme menu on the right side of

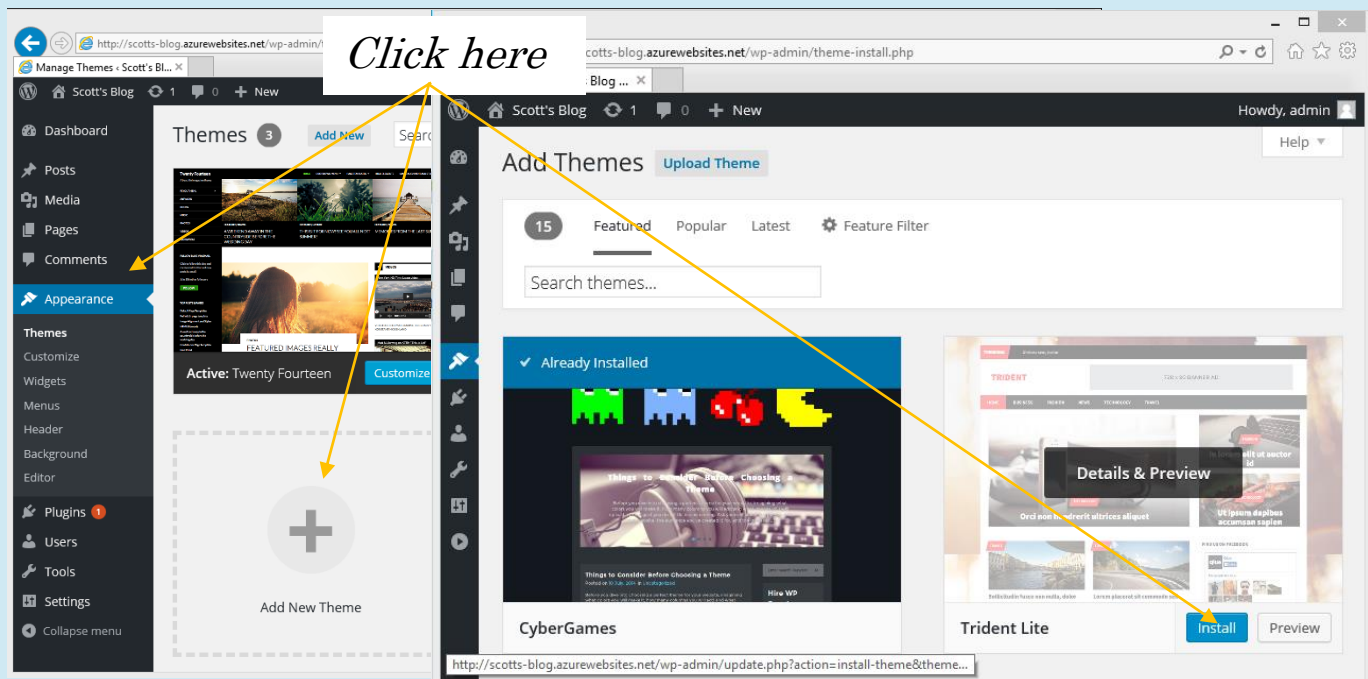

- Once you've selected a theme you like, go through each of the remaining settings and adjust the options to best fit the content you'll be sharing. Once you have everything set the way you like it, click Save & Activate

Click here

- If you didn't find a theme you like, you can install more to your site. Return to your dashboard, click Appearance and Add New Theme. Find something you like, and click Install and it will be added to your site

Congratulations now you have a personalized WordPress blog!
