Microsoft Imagine

# My First Project Spark Game

Get Lots of Gold
Card 4 of 7
I am learning: **Project Spark Game Programming**
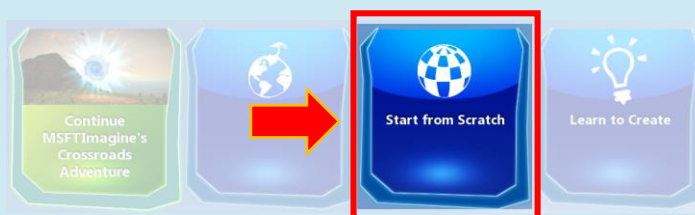

1. **Click on the Project Spark icon** in the Windows apps area to start Project Spark on a Windows PC.

2. **Click on Create** once you get to the main menu.

3. **Click on Start from Scratch** to start a blank game world.

4. **Follow the prompts onscreen** and click on the highlighted parts of the menus when asked.
5. **Click on and select Prop mode.**

6. **Click on the Prop mode arrow** and **select Edit**.

7. **Click the up arrow to open the Prop Gallery**.

8. **Search for 'pot** in the Objects area**, select the Pot of Gold,** and then **place it** in the world.

9. **Open the Pot of Gold's brain.**

10. **Click on the + sign by the WHEN** section and **select Objects** from the radial menu.

11. **Click the right arrow** to go to page 2 of the new radial menu that opened.

12. **Click on the Interactions folder** to open it.

13. **Click on the Interacted tile** to add it to the WHEN side.
14. **Click on the + sign by the DO** section and then **choose the Create folder**.
15. **Click on the Create tile** to add it to the DO side.
16. **Click on the + sign by the DO** section and then **choose the Objects folder.**
17. **Click on the Gallery Picker tile**, **type 'coin'** in the Search box, and then **pick the coin**.
18. **Your code will look like this in the Pot of Gold's Brain:**

19. **Test your game by clicking on the Play button in the upper-left corner.**

Congratulations! Now you've got a money-making pot of gold!
