Microsoft Imagine

# My First Project Spark Game

I need a Project Spark
Card 1 of 7
I am learning: Project Spark Game Programming

1. Using a web browser like Internet Explorer, Firefox, or Chrome, **go to the Project Spark website** at **http://welcome.projectspark.com/**

2. **Click the Windows 8.1 download button** on the Project Spark website.

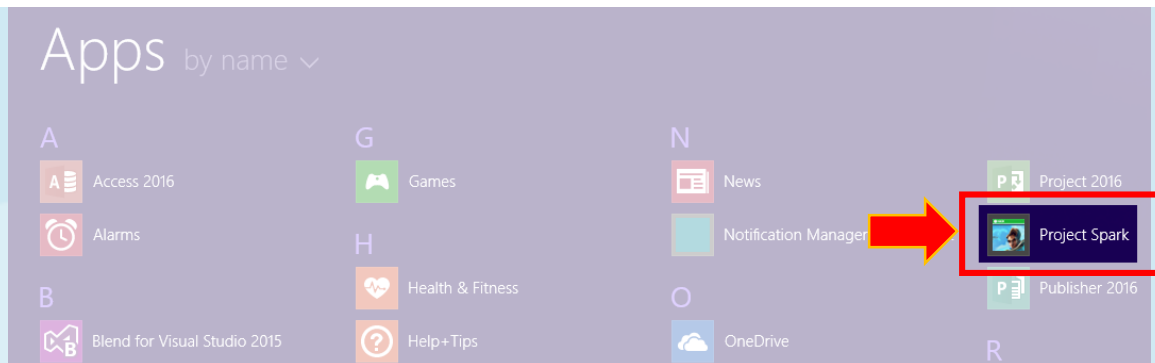

3. This opens the Store page to the Project Spark game application, where you'll need to **click on the Install button**.

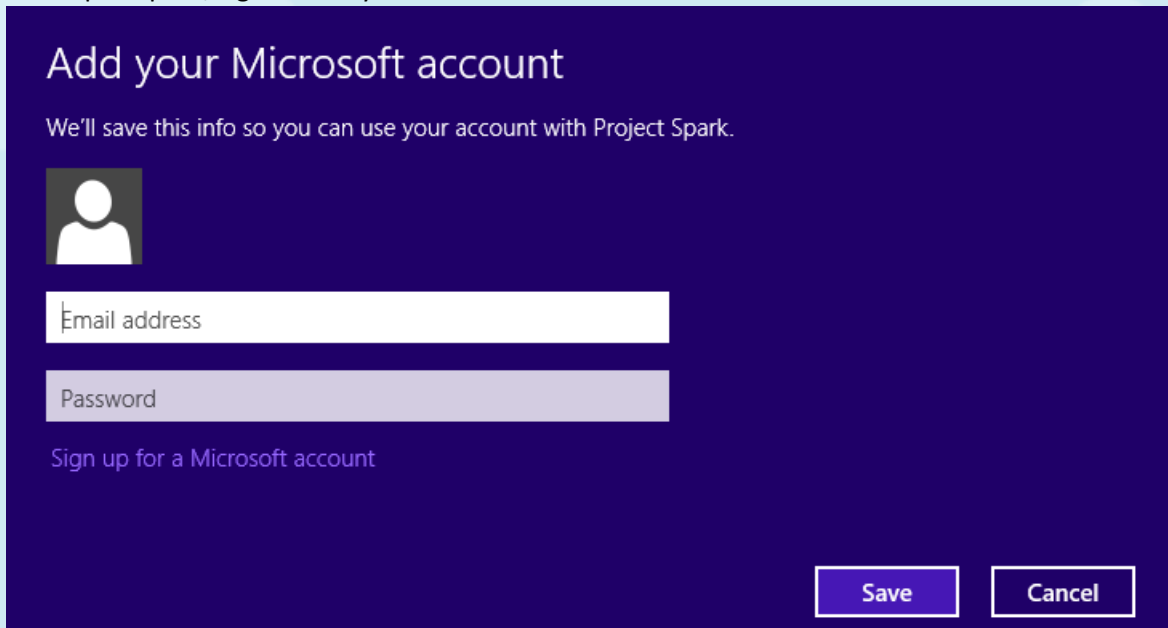

4. After clicking on the Install button, **wait** for a while to give the process time to complete. Project Spark is a very large piece of software, with lots of sounds, graphics, and features that take time to install.

5. **Click on the Project Spark icon** in the Windows apps area to start Project Spark.

6. When prompted, sign in with your Microsoft Account if needed.

7. After signing in, you'll see the rest of the intro movie and main menu screen.

Congratulations! You've installed Project Spark and can start building your game!
