Microsoft Imagine

# My First Project Spark Game

Complete Project Spark's Crossroads
Card 2 of 7
I am learning: **Project Spark Game Programming**
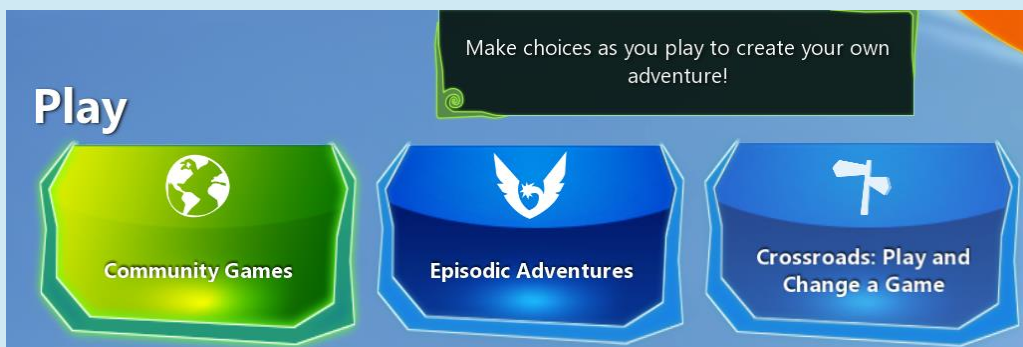

1. **Click on the Project Spark icon** in the Windows apps area to start Project Spark on a Windows PC.

2. **Click on Play** once you get to the main menu.

3. **Click on Crossroads: Play and Change a Game** to enter the Project Spark tutorial.

4. **Follow the tutorial prompts** and make your choices to build a new world.
5. **Use the W-A-S-D keys to move and the Spacebar to jump.**
6. **Use the left and right mouse buttons to use weapons/attack.**
7. **Play through the Crossroads and finish by saving the village.**

Congratulations! Now you've seen a little bit of what's possible with Project Spark!
