Microsoft Imagine

My First WordPress Blog

Create a WordPress Blog
Card 1.a of 8
I am learning: **Creating WordPress Blog**

Microsoft Imagine ✗

1. Go to https://portal.azure.com and login with your verified DreamSpark account
2. Click New, Web Apps, and Azure Marketplace. Search for WordPress and click WordPress and finally Create

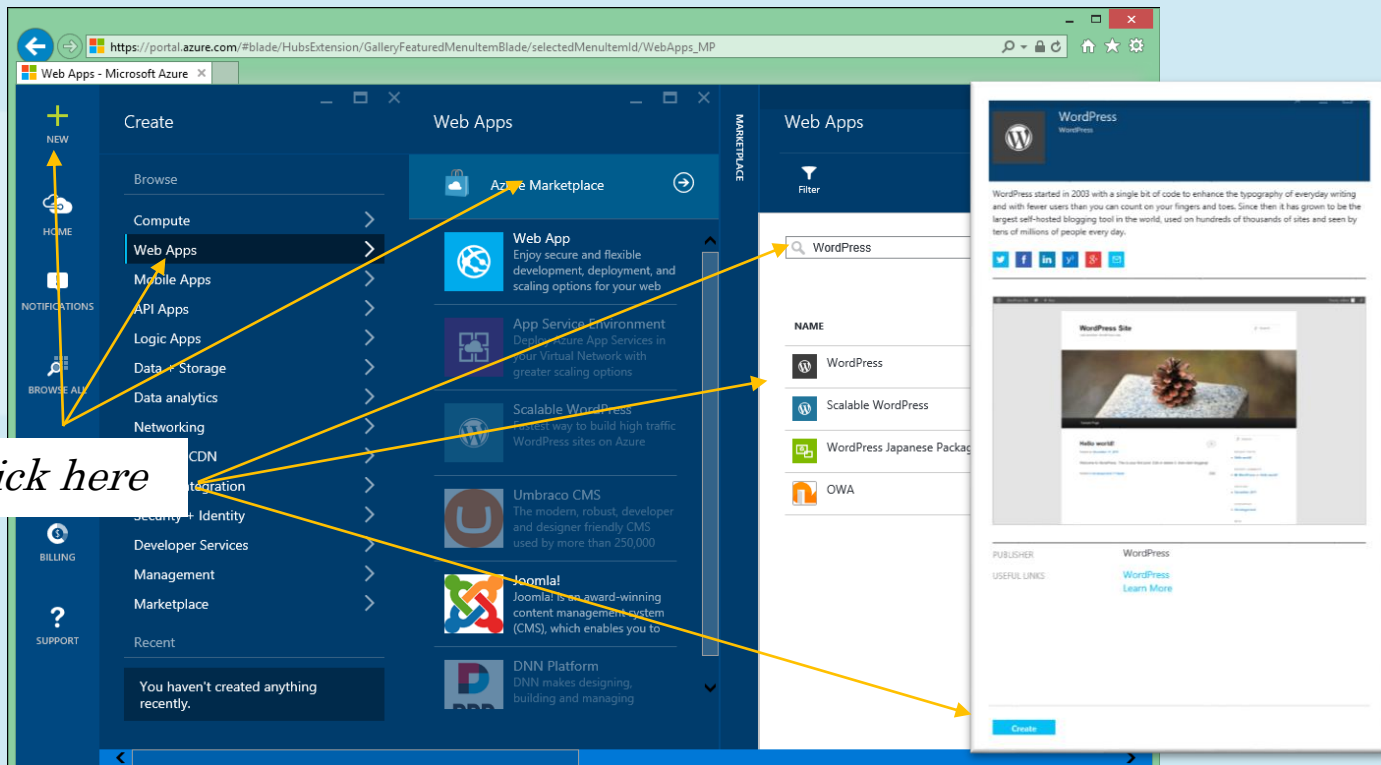

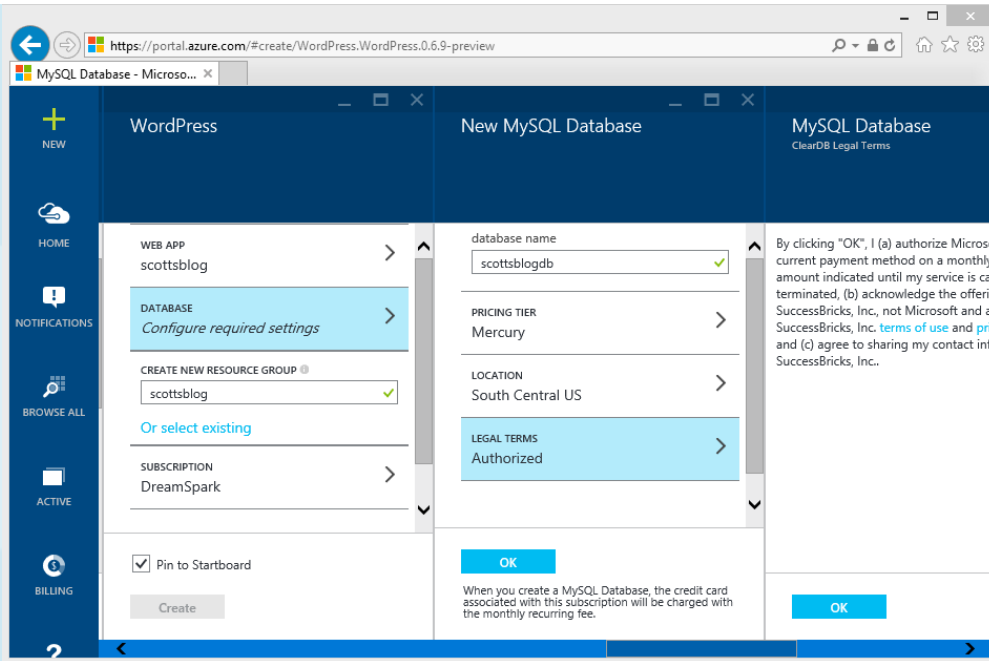

3. Click Web App, enter a unique URL for your blog. Then enter a unique name in the AppService Plan and the Resource Group. Change the location to where you are and leave all other settings to their default values.

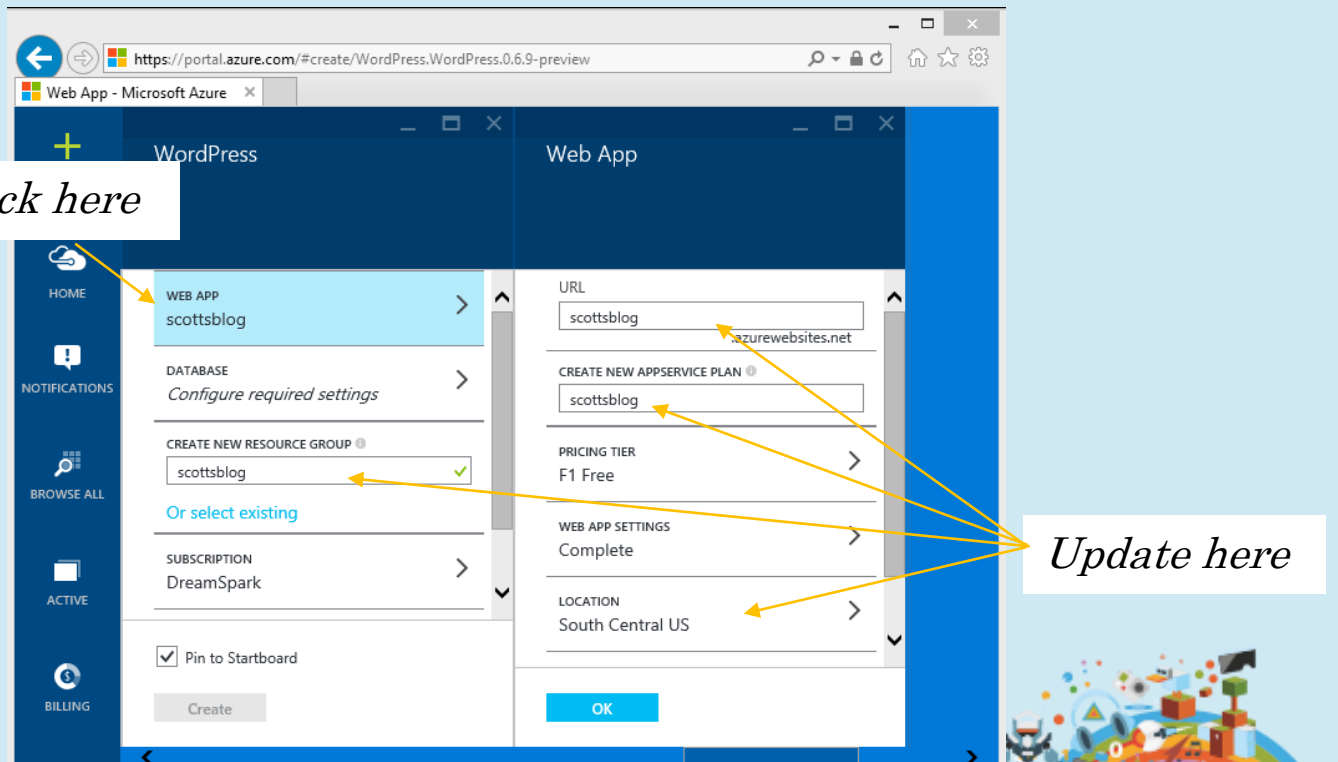

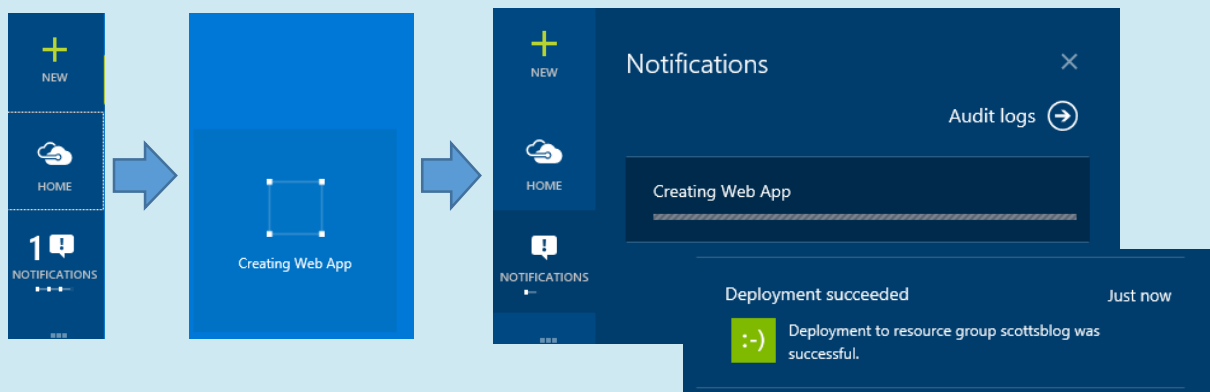

4. Click Database, then Legal Terms, then click OK to all open blades, and now click Create

5. You'll see the following notifications and after a few minutes your new blog will be ready to go

Congratulations you have now deployed your first WordPress blog!
