Microsoft Imagine

My First Kodu Game

Microsoft Imagine ✗
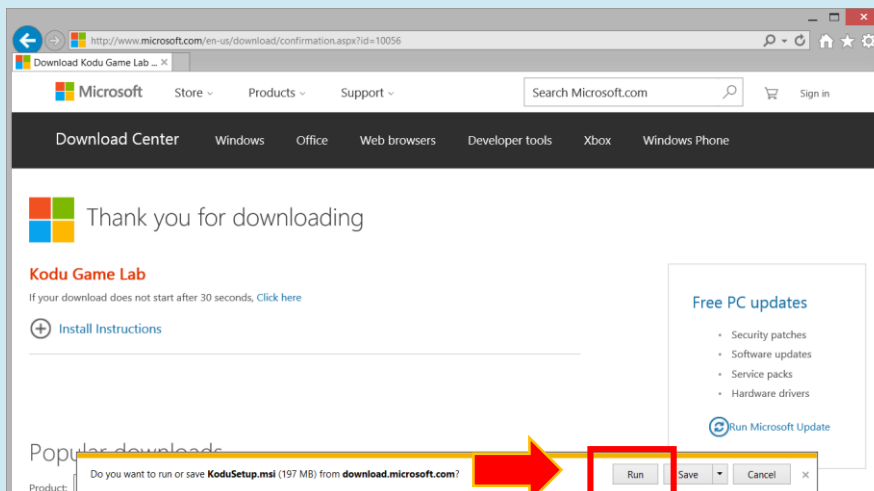

1. Using a web browser like Internet Explorer, Firefox, or Chrome, **go to the Kodu Game Lab website** at **http://www.kodugamelab.com**
2. **Click on the Get Kodu button**, on the Kodu Game Lab website.

3. You'll go to a new webpage where you'll need to **click on the Download button**.
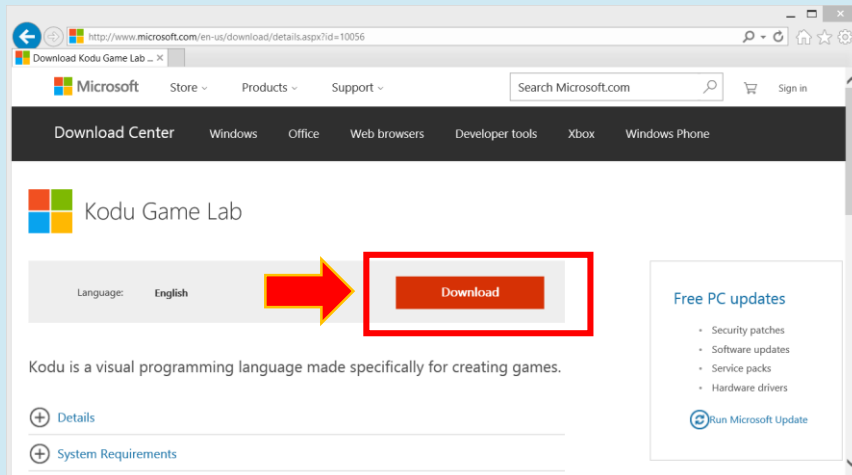

4. After clicking on the Download button, go ahead and **click on Run**.

5. Kodu Game Lab's Setup will start – **check the "I accept the terms in the License Agreement" box**, and then **click on the Install button**.

6. **Click on the Next button** through the next screens (ask your mentor if you have questions about this).
7. **Agree to any prompts** asking if you want to continue the install process if needed.
8. When Kodu Game Lab is done setting up and installing, you'll see a screen with a Finish button – go ahead and **click on Finish and you're ready to start making games with Kodu!**

Congratulations! You've installed Kodu Game Lab – let's get programming!
